Teams selected by Shari Ball except the Pugh Team who arrived late. Some close racing took place however after Elliot Pugh took the lead with 400 metres to go it was a case of chasing the Pugh family all the way on laps 2 to 4. Cassidy Ball said we have to break the Pugh family up, as they get older they are going to get better. Interesting that the anchor runners finished in the same time order as their team. Well done Shari, no one got lapped. Russell Lake got 1420 metres on his GPS while Alex Whimster recored 1440 metres on his bike.
